Design Criteria

Site details

Location:

Country, Region and Elevation

Brief Climate Description:

Information on temperature range, rainfall,
humidity or other pertinent information

Will the unit be indoors or outdoors?

Yes/No

Electrical:

3 ph available?

Yes/No

Voltage:

?

Are outages common?

Yes/No

Other Utilities: Is compressed air available? If so, what CFM at what pressure?

Text

Operational Details

Feed source:

Brief description of process that is producing the pregnant feed soln
ie is it from a milling/leaching process with thickeners? From a heap
leach operation? Is it a non cyanide bearing solution?
